Section B: Investment Detail

- Provide at least one Agency Strategic objective code ([A-11 Section 230](#)) and/or Agency Priority Goal code ([A-11 Section 250](#)) that this investment aligns to on performance.gov. If this investment aligns to more than one Agency strategic objective code and/or Agency Priority goal code list all that apply. If your agency does not report to performance.gov please use "0". This is required for Agency IT Portfolio Summary Part 1 and Part 2 Investments, not for Part 3 Investments.**

Agency Strategic Objective(s):

005SO18015: Contribute to the economic health of rural communities through use and access opportunities.

Agency Priority Goal(s):

- Briefly describe the investment's return on investment, including benefits internal and external to the government and outcomes achieved or planned.**

The qualitative ROI for Open Forest/USFS ePermits includes the following: 1)Provides Customers with consistent high level user experience and Online access to Forest Service services 2)Provides USDA and USFS a cost efficient Open Source solution that is approved and managed within all USDA Cyber security IT Governance Parameters 3) This solution pioneered the implementation of the concepts behind the USDA Centers of Excellence and US Digital Strategy by creating a Cloud modular platform (through modular contracting) with an Open Source code base that was designed with a focus on Human Centered Design Research and User experience using Agile practices.

The quantitative return on this investment is minimal. The Christmas Tree permitting workflow has been moved to Recreation.gov. Due to that move the Open Forest investment no longer provides a service that collects funds and is currently implemented on 1 National Forest providing services as an on-line application submission that does

not collect funds. See the ROI analysis for more details.
